

One day Exposure visit -cum-training programme organised for tribal farmers at ICAR-CITH Srinagar

One day Exposure visit -cum-training programme on production practices of important temperate fruit crops was organised for tribal farmers of District Ganderbal “under Tribal sub plan (TSP) at ICAR-CITH Srinagar on 20th of September 2022 in collaboration with Department of Agriculture, Govt. Of J&K. Total 85 tribal farmers/beneficiaries participated in the programme from tribal areas of Babanagri and Ganiwan (Kangan Sub Division) of District Ganderbal. Farmers were made acquainted with important cultivation practices of important temperate fruit crops as well as vegetable crops by scientists of ICAR-CITH Srinagar. The Director of the institute Dr Om Chand Sharma stressed the tribal farming community to adopt the modern practices of cultivation of fruit and vegetable crops. The coordinator of the programme Dr Sajad Un Nabi highlighted the importance of the programme conducted under Tribal sub Plan at ICAR-CITH Srinagar. Farm visit was also done in which technologies related to fruit and vegetable were demonstrated to farmers. The farmers participated with zeal and were highly satisfied with the training programme. Finally at the end of the programme Knapsack sprayer and seed kit of different vegetables was distributed among the beneficiaries.
