

**Training cum distribution programme at ICAR-CITH, RS-Dirang Arunachal Pradesh under NEH scheme.**

The ICAR-Central Institute of Temperate Horticulture, RS-Dirang, West Kameng, Arunachal Pradesh organized training programmes on 7<sup>th</sup> & 8<sup>th</sup> March 2022 on basics of temperate fruit production and promotion of organic farming in the District. During the programmes 120 farmers of different villages of West Kameng District of Arunachal Pradesh participated. The team was led by Dr. Wasim H. Raja, SIC RS -Dirang, and Dr. Sajad Un Nabi, Scientist Plant Pathology, ICAR-CITH, Srinagar. The participants were acquainted about various aspects of temperate fruit production viz., propagation techniques, nursery development, disease management, and the importance of organic farming for livelihood security. Participants actively participated in discussion and showed great interest in learning the basic aspects of temperate fruit production and organic farming. At the end of the training programme, Vermicompost was distributed among the participants.
